# WE ARE AWDIS

## OUR STORY

Born in Scotland and established in the USA in 2017, AWDiS is your one-stop destination for fashion led basics and customizable apparel.

Rooted in the quality and integrity synonymous with British design, AWDiS brings together premium fabrics, construction and unbeatable value.

Influenced by European streetwear culture, our collections feature oversized fits, bold colors and fashion-forward styling that redefine everyday wear.

## OUR PRODUCTS

Our blanks combine color, quality and printability. This means that we deliver endless creative possibilities: from college and university campuses to sports fields and casual settings, we've got every occasion covered. Identity has no boundaries when AWDiS is in the picture.

## WHY CHOOSE AWDIS

Our commitment to sustainability that's accessible means you don't have to compromise on ethics or affordability. AWDiS delivers the same sustainability credentials as leading brands - from removing all virgin plastic in 2022 to eliminating 80% of packaging in 2023 and switching to 100% certified compostable bags, all while remaining at a price point that works for everyone.

At AWDiS, doing the right thing isn't a slogan, it's the foundation of who we are. We work hand in hand with our global partners to make a positive impact and create a more responsible future for our industry.

ALL WE DO IS...**CARE**

# WHO WE ARE.

---

At AWDIs, we pride ourselves on helping to reduce the harmful impact the apparel industry has on our planet, as we own our manufacturing facility and operate as a fully vertically integrated business. We control every stage of production, from yarn to finished garment, ensuring full visibility and standards throughout. With our own factory and dedicated teams overseeing every detail, we maintain complete control over design, sourcing, dyeing, cutting and finishing. This hands-on approach gives AWDIs the flexibility, efficiency and accountability that define our commitment to responsible, high-quality apparel.

---

## REDUCING WATER USAGE

Ensuring they use the latest technologies our production has reduced water consumption during the dyeing and finishing process by over **50% per garment**.

Any excess water is processed through a state of the art effluent water treatment plant before being released in a sustainable manner.

---

# 90%

OF OUR PRODUCTION

---

comes from our longterm global supply partners who have been with us since the beginning of AWDIs, 15+ years ago.

# PETA - APPROVED VEGAN
